West Virginia State

prediction that the Wheeling and the tri-state radius would show a more decided interest in the West Virginia state fair this year than ever before is being borne out by the attendance figures. On Tuesday of last year the attendance was 3,081. Yester-day it was 4,295, an increase of over If this ratio is kept up the re mainder of the week, the fair association will be very well satisfied.

The weather yesterday was all that could be desired, the very light shower late in the afternoon not interfering with anybody's enjoyment of the day's pleasures.

The races yesterday were most enjoyable, and to-day's programme is quite attractive. This being the first "Merchants' Days, the state fair management expects be a record breaker for attendance and the anticipation will likely be realized, for it is believed the out-of-town people will come to Wheeling thousands strong to-day to take in the fair and witness to-night's pyrotechnic show.

To-day the programme is full to over flowing with good things. In addition to the races and the hippodrome races on the track, the great ple-eating confront of the grand stand at I o'clock These new f. Ltures, under the direction of Col. C. R. 'racy will be thoroughly enjoyed with at a doubt.

MANY WARDS MADE

In Several Departments of the State Fair Yester lay-Madison Wins in the Educational Contest-Full List of Yesterda; 's Awards.

Yesterday was a day of hard work for the judge, of the various depart-ments at the rac, and those who have

ments at the raf, and those who have never gone threach the mill don't know the degree of raponsibility that rests on the shoulder to the committees chosen to decide the winners of the premiums in the various classes. It is a tedious job, and one which requires time and judgment.

The educational department and the brads and fruits departments finished early in the day, and the ladies' committee having in charge the awarding of prizes in the textile departments and the art department was next to report. The awards in the live stock department, the poultry department and fruits and vegetables will be finished to-day. shed to-day

Art and Textiles.

In the ladies' textile and art depart-ment premiums were awarded as fol-lows:

NEW HEATING APPARATUS On Exhibition at the State Fair-A

Seamless Warm Air Furnace.
Prominent among the exhibits at the fair is one which has attracted the atstands near the upper end of the space devoted to the farming implements in machinery hall, and is known as the fa-

machinery hall, and is known as the famous Stanton seamless warm air heater, manufactured by the Stanton Heater Company, of Martin's Ferry, Ohio. Mr. Henry Stanton, who has charge of the exhibit, explained the merits of the new heater to the spectators, all of whom seemed to be impressed with it. The heater itself is made of aluminum plated sheet steel, a substance that will not scale, no matter how hot it is made, and is the most simple and complete heating apparatus on the market to-day. It is equipped to burn gas or coal, and when using the former and the gas given out, a patent appliance makes the heatter ready for a coal fire within a moment's time. The ance makes the heater ready for a con-fire within a moment's time. The seamless construction makes it impossi-ble for it to emit gas, moke or dust as-others do, and at the same time dis-tributes fresh warm air in greater and better quantities than any heretofore

hetter quantities introduced.

The Stanton company has established a large trade in the western states and their works are kept busy filling orders. Every person visiting the fair should see this heater, especially those inter-Every person visiting the see this heater, especially ested in heating apparatus.

Hatching his Chickens.

One of the greatest attractions at the fair is the Corliss Incubator, manufactured by the Athens Incubator, manufac-tured by the Athens Incubator Compa-ny, of Athens, Ohio. In the poultry department these incubators are hatch-ing chicks every day, and the new and novel plan is very interesting. As the

and Cakes Department the awards chicks are hatched, they drop into the made yesterday were as follows:

Canned btackberries — Mrs. S. A. Clipp, St. Clairsville; second, Mrs. E. L. Schambrs.

Canned raspberries—First, Mrs. Yost, Drill, Ohlo; Miss Helen Liston, Bridgeport, second.

A FINE EXHIBIT

Of Marble and Granite Monuments Made by J. T. Hanes at the Fair. In the south wing of the main building at the state fair, J. T. Hanes, of Martin's Ferry, has exhibited a full and handsome line of marble and granite handsome line of marble and grante monuments, tombs, etc., which has at-tracted considerable attention. About the walls of the booth are hung pictures and drawings of many designs recently made, and sold by Mr. Hanes to some of the best citizens of Wheeling and wiof the best citizens of Wheeling and vi-cinity. In nearly every cemetery around this portion of the country, spe-cimens of his work are to be seen, and among them are some of the finest. Nothing but the best material is used in J. T. Hanes' work, all of which is done under his personal supervision. A specialty is made of fine imported granite monuments which can be fur-nished at prices most reasonable. The works and office are located corner of Second and Locust streets, Martin's Ferry, Ohio.

TWO GREAT RACES

Were Contested Yesterday Afternoon A Wheeling Horse Loses the 2:28 Pace After a Struggle of Five Heats. Christobal Won the 2:13 Pace.

Fine racing was witnessed by the growds that went to the state fair yesterday afternoon. There were three scheduled events, the 2:28 pace, the 2:40 trot and the 2:13 pace, but the 2:40 trot was declared off, only two horses of the several entering appearing. Both the other races were holly contested and

the several entering appearing. Both the other races were hotly contested and most Interesting to the speciators. The 2:28 pace went to Christobal after six hotly contested heats. The first was won by G. H. R., but the second and third went to Star Onward. a Wheeling horse, owned by Ray & Waddle, and the crowd looked for a home victory, but they were disappointed, as Christobal came up gamely and won the fourth, fifth, and sixth heats hands down.

down.

Birdie Dickerson was the ruling favorite in the 2:13 pace, but her stock went down several points when Gladys won the first heat with Birdie in second position. However, Birdie responded in the next three heats, which were won in succession, and the race went to the Garfield mare.

THE 2:13 PACE.

J. N. Vanco.

Of the eight horses entered for the 2:13 pace, all but Rose L. appeared, as follows: Gladys, Birdle Dickerson, Silver Hal, G. W. D., Bourbon R., Nichol and Burr Patch. Birdle Dick-

erson and Gladys ruled strong favorites. First heat—Gladys and Birdle soon First heat—Gladys and Birdle soon pushed out of the bunch into the first and second positions respectively, and it was soon evident the heat was between them alone. At the half Gladys was leading by a length and drive as desperately as he could, Birdle's driver was unable to wrest the pole and the lead from the brown mare. In the back stretch, Birdle was only half a length

COMING DOWN THE STRETCH.

The races in detail are described be-THE 2:28 PACE.

The races in detail are described below:

THE 2:28 PACE.

The first race on the afternoon's racing programme, the 2:28 pace, was called at 2 o'clock. Of the eight horses entered, H. J. P. and Tommie B. did not start, leaving the field composed of Black Queen, Star Onward, G. H. R., Bright Bell. Christobal and Charile H.

First heat—At last they got away, with Black Queen, the outside horse in the rear and the others bunched. At the front, with the others trailing along several lengths to the rear.' At the half mile, G. H. R. led by a length. Black Queen became unmanageable and nearly collided with the quarter stretch fence, but her driver finally regained control and the disaster was averted. At the three-quarters, G. H. R. had increased his lead over Star Onward to two lengths and was pacing like clock-work. Bright Bell was in third position but too far behind to be considered at all in it. In the stretch the respective positions of the two leaders were unchanged, G. H. R. winning by two lengths without being pushed. Christobal showed a great burst of speed at the finish and won out for hird position in very handsome style. Time, 2:20¼.

Second heat—This was Star Onward's heat. He and G. H. R. got away slightly in the lead at the start, and of the field none seemed able to give either of the two leaders an argument during the first half. At the start Black Queen again got away far in the rear, the others being beautifully bunched. At the half mile Star Onward was pushed out and won handsomely, but G. H. R., winner of the first heat, was displaced from second position, Christobal coming up the line in a burst of speed that gave him the place over G. H. R. and Black Queen. Time, 2:20%.

Third heat—The third heat was deadeasy for Star Onward. G. H. R. look-

2:20%.
Third heat—The third heat was dead
Therefor Star Onward. G. H. R. look-2:20%.
Third heat—The third heat was dead easy for Star Onward, G. H. R. looked good at the quarter, but eventually he was out of It. At the half mile, Star Onward was leading G. H. R. by two lengths and Black Queen was in third position. On the lower turn. Black Queen went up in the air and seemed to be out of it, but she soon settled down and was driven to the finish for all she was worth. Star Onward finished eight lengths in the lead. G. H. R. had nothing left, and by great work Black Queen came up in a spurt and captured second position from the bay gelding. Time, 2:21%. Fourth heat—Star Onward went out in the lead, with Black Queen in second position. At the half Star was still leading, with Black Queen in second position. At the half Star was still passed Black Queen, and was soon contesting with Star Onward for the lead. Soon Star was passed and Christobal, keeping up his good work, won out handsomely. In an exciting semp for second position. Star Onward for the lead. Soon Star was passed and christobal, keeping up his good work, won out handsomely. In an exciting scrap for second position. Star Onward won out over Black Queen. Time. 2:194.

Fifth heat—Christobal justified ex-

won out over Black Queen. Time. 2:1934.

Fifth heat—Christobal justified expectations by taking this heat in good style. Black Queen went out in the lead with G. H. R. in the place. At the half the Queen was still in the lead, with Christobal in the place. Going into the lower turn, Christobal went to the front in handsome style, and led Black Queen by a length. Thereafter Christobal was not headed, and won over the Queen by two lengths, with over the Queen by two lengths, with

Only two horses, Klondyke and Nora

to the bad. In the home stretch Gladys slightly increased her lead, winning over Birdle Dickerson by a length. Three horses, Silver Hal, Bourbon R. and Burr Patch, made a great driving finish for third place, and Silver Hal, coming up on the outside, won by a head, and fourth place went to Bourbon R. by a nose over Burr Patch. This exciting bit of racing enthused the crowd. Time, 2:15%.

Second heat—This heat soon narrowed into a three horse race, with Birdle Dickerson, Gladys and Nichols the star performers. Birdle got out in the lead, with Gladys close up and the others bunched on the back stretch. Just here Silver Hal broke badly and was soon a very bad last. At the half Birdle Dickerson, Gladys and Nichols were bunched, one-two-three, and the to the bad. In the home stretch Gladys

HOLSTEIN BUTTERMAKER.

race was very exciting. On the back stretch. Nichols was coming up on Gladys with every stride, but Birdie Dickerson had slightly increased her lead over these two. Birdie took the heat by two lengths, and in the last fifty feet Nichols was sent out for all he was worth and captured second place by a head. The time was very fast, 2:134.

Third heat—Again Birdie Dickerson came to the front and won out, though Nichols gave her a pretty argument at one stage. At the start Burt Patch was left far in the rear. Birdie went out in the lead hard pushed by G. W. D. At the half Birdie was a length to the race was very exciting.

The races begin promptly at 12:30 o'clock, with an intermission at 1 o'clock for the ple-cating contest and the cake walk.

TUESDAY AT THE FAIR.

The big Opening day Crowd Enjoyed the Hipprodrome and Other New Features-A Busy day on the Mid-way, Which is Alive With Divers Shows-Cake Walk To-day.

Fair weather marked the second day of the state fair, and an increased attendance over last year was a feature. Up until about 4 o'clock the sun shone bright and warm, but after that heavy clouds began to gather which made the outlook for the remainder of the day rather cloomy. Just a few drops of rain fell, however, and the clouds passed away, leaving a promise of another pleasant day for the merchants to entertain their out of town customers and

tertain their out of town customers and friends. **Of.*

The influk of strangers in the city yesterday was larger than on any second day heretofore, and this speaks well of what can be expected to-day and tomorrow. All the restaurants and hotels did a large-business all day, and has night nearly every hotel had a full house. The strangers who came yesterday nearly all stayed over to take in the fair to-day and the fireworks tomight. **The strangers who came yesterday nearly all stayed over to take in the fair to-day and the fireworks tomight. **The strangers who cannot be supported by the strangers who came yesterday nearly all stayed over to take in the fair to-day and the fireworks to-might. **The stranger in the stranger

torday nearly all stayed over to take in the fair to-day and the fireworks tonight. The fair to-day and the fireworks tonight. The fair to-day and the fireworks tonight. The fair to-day are to the condition for speed. The exhibitions given by all whi saw them. The races were fine and the track in excellent condition for speed. The exhibitions given by Jay Cooke's famous hippodrome and equine paradox were excellent and it can be said that never has a feature been introduced at the fair that has given such satisfaction. The first race introduced by the combination was a Roman standing race between Mr. J. C. Campbell and Mile. Campbell. Each standing upon the backs of two fiery steeds, at the word "go" went thundering down the track and one of the most thrilling, exhibitions ever seen here was on. It was neck and neck all the way around the track, and when the stretch was reached the refers whipped up their horses until they fairly flew and passed the grand stand with the man a winner by a head.

The other events were the hounds' race, which is one of the most interesting and entertaining exhibitions imaginable, and the exciting charlot race between Mr. and Miss Campbell. This was very thrilling and it served to work the growd up to the highest pith of excitement. The man was in the lead all, through the race until the stretch was reached, when the lady made it spurt and with her charlot rolling along half the time go now wheel, she passed her competitor like a flash and won the race. Every one of these races are a serie for blood, as there is a cash races are a serie for blood, as there is a cash races are a serie for blood, as there is a cash races are a serie for blood, as there is a cash race a fire for the cash and won the race.

he passed her competitor like a flash nd won the race. Every one of these aces are for blood, as there is a cash races are for blood, as there is a case prize offered for the winner of each.

To-day the Roman standing and charlot races will be repeated and several other events will be introduced, such as the hurdle race, steeple chase, etc., etc.

JUDGING THE CATTLE.

JUDGING THE CATTLE.

One of the interesting sights on the grounds yesterday was the judging of the cattle and live stock, and the awarding of the premiums. To those who have never seen it, it is worth while spending a half hour or so watching the process of determining which is the winner. The judges were hard at twork on this task yesteray, and will finish up some time to-day.

The Midway loomed up as it never did before yesterday, and there are more white tents along there than Barnum & Bailey carries. Side shows are on all sides, with every conceivable kind of an attraction. "4 Paws Museum" is the first, then comes the "human fish," the merry-go-round, the Oriental theatre, Kohen the strong man, Prof. Zera, the Jeffries-Fitzsimmons fight pletures, and Bosco, the snake cater. These are only a few of them. The big black tent of the cinematograph pictures of the Jeffries-Fitzsimmons fight shows up immense. It is brand new, poles, states, ropes and all, and was put up for the first time yesterday. John Harris, of the Grand opera house of Pittsburgh is the owner and manager of this exhibition, which will prove popular with the visitors. It is the same attraction as gave such spiculds attisfaction at Mozarr park a few weeks ago.

Today is the time set for the great-cake walk and pie-eating contests, and those who have seen these features, need ridt be rominded that there is a heap of fun ahead. The contoutants, whose manes were printed in year-day's intelligencer, have qualified, and will show up on the track when the song sounds at 1 o'clock this afternoon.
